Professional Summary

Full Stack Developer with 1+ year of experience designing, developing, and deploying scalable, secure web applications across **SaaS**, **ERP**, and mobile platforms. Experienced in **backend architecture**, **RESTful API** development, authentication and authorization (**JWT**, **RBAC**, **ABAC**, **SSO**), and **database design**. Possesses strong problem-solving, client communication, and cross-functional collaboration skills.

Technical Skills

Languages: JavaScript, TypeScript, Java
Frontend: HTML5, CSS3, React, Tailwind CSS
Backend: Node.js, Express.js, RESTful APIs, JWT, RBAC, ABAC, SSO
Databases: MySQL, MongoDB, Sequelize ORM
Developer Tools: Git, GitHub, Postman, Swagger, TSOA

Experience

Barbikan Technologies Private Limited

May 2025 – May 2026

Full Stack Developer

Tamil Nadu, India

- Delivered 7+ **SaaS**, **ERP**, and mobile apps using **React**, **Node.js**, **Express.js**, and **MySQL** in **Agile/Scrum** environments.
- Designed **backend architecture**, **database schemas**, **ER diagrams**, and **RESTful APIs** for scalable **multi-tenant SaaS** deployments.
- Managed **Git/GitHub** version control workflows and coordinated production releases to ensure smooth deployments.
- Led client requirement discussions and sprint planning to align deliverables with business goals.

Projects

Crackers Management System – SaaS | *Node.js, Express.js, TypeScript, MySQL, Sequelize, Swagger/TSOA*

2025

- Architected **multi-tenant SaaS backend** with **RESTful APIs** for products, inventory, and online enquiry management, including **RBAC (Role-Based Access Control)**.
- Migrated codebase from **JavaScript** to **TypeScript** and integrated **Swagger/TSOA** for API documentation; migrated storefront build tooling from **CRA** to **Vite**.
- Built transactional email workflows using **Nodemailer** and **Brevo** to automate **user invitations**.

Internal Single Sign-On – SSO | *Node.js, Express.js, TypeScript, MySQL*

2025

- Built **centralized authentication system** enabling unified login across multiple SaaS products via shared tenant, organization, product-access, and user models using **ER-modeled** architecture.
- Authored **1,000+ lines of SQL migration scripts**, migrating live production data with **zero data loss**.

Construction & Real Estate Management System – CMS | *Node.js, Express.js, TypeScript, MySQL*

2025

- Built **cascading dropdown APIs** and **dashboard analytics APIs** returning structured **JSON** for hierarchical client-project-plot data and visually appealing **chart/graph visualizations**.
- Implemented **multi-image uploads**, **Excel import/export**, **HTML-to-PDF generation**, and **ABAC (Attribute-Based Access Control)** to control edit/delete actions.

Traders Association Management – Mobile App | *Flutter, Node.js, Express.js, MySQL, Firebase*

2026

- Delivered backend for a **mobile app within a 17-day sprint**, managing the delivery team through live client demos and shifting requirements.
- Built **member management** and **event management** modules, including **income and expense tracking**, **polling**, and **QR check-in**, later extending check-in functionality with phone-number-based verification per client requirement.
- Implemented **donation management** module with **RBAC** and **Firebase push notifications**.

Education

Virudhunagar Hindu Nadars' Senthikumara Nadar College (Autonomous)

July 2023 – Apr 2025

Master of Computer Applications (MCA) – CGPA: 6.1/10

Virudhunagar, Tamil Nadu
